Advent Study Groups

There will be a 3-week study series on the theme of Advent in December. We meet on Saturday mornings, from 5 December at 10am in The Vicarage and Sunday afternoons, from 6 December at 3.30pm in St Andrew's Church.

EverydayFaith

Daily reflections to inspire and encourage you in your everyday faith. Download the app free via *cofe.io/EverydayFaithApp*

There will be a Memorial Service at All Saints, Glossop on Sunday 29 November at 4pm. It is an opportunity for those who have close family members and loved ones who have died, to find space for reflection in the Church and to light a candle in their memory.

Prayer for COP by Mary Okeno, from the Anglican Church of Kenya

Creator God, whose wisdom is revealed in the rich diversity of all that you have made, and who entrusted the earth, its waters, forests, creatures and peoples to our care: forgive our failure to be faithful stewards of your creation, and grant to all who gather at COP wisdom, courage and humility; that the voices of all peoples, especially young people, women and indigenous communities, may be heard and valued, and that lasting partnerships may be formed for the protection of the abundance of life you have given.

Renew in us the knowledge that care for creation is both a moral duty and a sacred calling; strengthen the world's leaders and policymakers to seek the common good, and inspire us all to be agents of hope where there is despair, restoration where there is destruction, and justice where there is indifference, so that the rivers run clean, the forests flourish, endangered species be protected, as we learn to live in harmony with the earth; through Jesus Christ your Son our Lord. Amen.

Year's Mind

Geoffrey Beeson; Eva Hinchcliff

ECO CHURCH
AN A ROCHA UK PROJECT

Eco Tip of the week

Driving sustainably

1. Drive Smoothly - Harsh acceleration and braking wastes fuel and increases the wear and tear of your vehicle and tyres. By driving smoothly, keeping an eye on what is happening ahead and giving yourself plenty of space and time to respond, will help to bring down carbon emissions and reduce fuel and car maintenance costs.

2. Don't Idle - Idling (leaving the engine running whilst stationary) wastes fuel and contributes unnecessarily to air pollution. If you are going to be waiting for longer than ten seconds turn off the engine to save money and carbon. For those that have start-stop technologies, make sure you use it! Remember that idling is also not necessary to warm up your engine or your car interior, simply easing into your drive is the best way to warm up both.
