

# Nature in St James's churchyard

## Saturday evening and Sunday morning

### 6-7<sup>th</sup> June

Two linked informal events; as part of National 'Love Your Burial Ground Week' - we'll have bat detectors, moth traps, camera traps and night binoculars, along with recordings from previous sessions, for some hands-on natural history in the churchyard.

Saturday 6<sup>th</sup> June, starting 8pm (unless it rains hard)  
Sunday 7<sup>th</sup> June, starting 10am (after the morning service) to see what moths were caught and what bats and any other night visitors were recorded...

Everyone welcome to either or both events. Please wear something warm with appropriate footwear.

Refreshments (sausage / cheese rolls and hot drinks) will be available during the sessions.

More details about the events, and descriptions of wildlife in the churchyard, online at <https://www.achurchnearyou.com/church/16602/> or using this QR code:
