

## **21st February 2026 Kitchen works update from Rev. Malcolm**

**We have some new cupboard shells installed, don't panic if you think they look a bit rough, these are just the carcasses, they will of course like all the other bits be clad in best quality pitch pine reclaimed from the redundant pews.**

**We also have a kitchen door now, which will of course be getting a bolt and stop and another couple of coats of stain in due course. Again thanks to the team for all the hard work this**

## **31st January 2026 Kitchen works update from Rev. Malcolm**

**The joinery team have been in church at the end of the week, and have installed the front panels to the kitchen, after a couple of weeks of hard work in the workshop. They have only so far had a single coat of stain, so are a bit pale, but once fully stained and oiled, hopefully they will look like they have always been there. There is still a lot of work left to do, but we are slowly getting there. We would not be where we are now without a huge amount of hard work from the volunteer work group so big thanks to them.**
