A prayer for Ukraine

God of peace and justice, we pray for the people of Ukraine today. We pray for peace and the laying down of weapons. We pray for all those who fear for tomorrow, that your Spirit of comfort would draw near to them. We pray for those with power over war or peace, for wisdom, discernment and compassion to guide their decisions. Above all, we pray for all your precious children, at risk and in fear, that you would hold and protect them. We pray in the name of Jesus, the Prince of Peace. Amen

A Prayer for Iran

A prayer by the Rt Revd Dr Guli Francis-Dehqani, Bishop of Chelmsford.

Ever-loving God,

who hears us in our anguish and distress, and longs for us to be free.

We pray for the people of Iran and the wider Middle East, at this time of fear and uncertainty.

Be near to those who are anxious; bring comfort to all who are suffering.

Guide those with the power to make decisions, and lead them in the ways of wisdom, compassion and moderation: that people of goodwill would seek harmony and reconciliation.

Join us with our Christian brothers and sisters in all places, in praying for peace with justice, through him who is the prince of peace, Jesus Christ our Lord.

AN A ROCHA UK PROJECT

Eco Tip of the week

Contamination of recycling can cause entire loads to be rejected and sent to landfill or burnt, wasting carbon and your effort!

1. Know what is (and isn't) recyclable -

Here is a quick list of some things that should not be recycled but commonly are: oven glassware, greasy pizza boxes, coffee cups, used kitchen rolls and tissues, nappies, plastic bags, soft plastic packaging, cling film and crisp packets. Remember that other items such as textiles, electronics and food waste can also be recycled through separate processes.

2. Rinse it - Any residue food or drink left on the recycling is contamination. If there is sufficient in a load it will all be rejected. Simply rinse out your cans, bottles and containers before putting it in the recycling to. To save water, rinse them using the left over water from your washing up.
