Did you know that 1 in 6 people in England have hearing loss. Hearing aids increase the volume but not necessarily the clarity which in a crowded environment can be literally deafening!

Losing your hearing can be isolating as you withdraw from social activities and from Church too as it can be so frustrating and exhausting.

BUT YOU CAN HELP....

- Use the loop system or print the sermon and let people know
- Speak one at a time when chatting
- Face the person and don't cover lips
- If a person asks you to repeat something **NEVER EVER SAY 'IT DOESN'T MATTER!'**
