A Prayer for Iran

A prayer by the Rt Revd Dr Guli Francis-Dehqani, Bishop of Chelmsford.

*Ever-loving God,
who hears us in our anguish and distress, and longs for us to be free.
We pray for the people of Iran and the wider Middle East, at this time of fear and uncertainty.
Be near to those who are anxious; bring comfort to all who are suffering.
Guide those with the power to make decisions, and lead them in the ways of wisdom, compassion and moderation: that people of goodwill would seek harmony and reconciliation.
Join us with our Christian brothers and sisters in all places,
in praying for peace with justice, through him who is the prince of peace, Jesus Christ our Lord.*

A prayer for Ukraine

God of peace and justice, we pray for the people of Ukraine today. We pray for peace and the laying down of weapons. We pray for all those who fear for tomorrow, that your Spirit of comfort would draw near to them. We pray for those with power over war or peace, for wisdom, discernment and compassion to guide their decisions. Above all, we pray for all your precious children, at risk and in fear, that you would hold and protect them. We pray in the name of Jesus, the Prince of Peace. Amen

Eco Tip of the week

Our smartphones have a much higher environmental impact than you may realise!

1. Keep them for longer - The majority of the emissions account for the production process of the phone which includes the sourcing of precious metals which are rare and difficult and expensive to mine. 1.5 billion smartphones are sold every year, which puts a huge demand on these limited resources.

2. Recycle it - When it comes time to get a new phone (hopefully after you have extended its life as long as possible) make sure that the materials do not go to waste. Less than 10% of replaced smartphones are recycled. By ensuring to recycle your old phone you can help reduce the demand for materials further, enabling the reuse of those rare metals and reducing the need for mining. Alternatively, if it is still in good shape, you can make a bit of cash by selling the phone on.
