A Rocha's hints and tips for October

Greening your home this autumn

Tackle climate change and reduce your heating bills by finding and reducing the draughts in your home. Find the gaps that let cold air in and warm air out (keyholes, letterboxes, gaps around windows, doors, loft hatches, etc.). Do what you can to fill these gaps; there's plenty of tutorials on line.

Prepare for winter by putting radiator reflector or baking foil behind the radiator. This reflects heat back into your room.
