

Welcoming Ukrainian refugees to our parish

If you are considering welcoming Ukrainian refugees into your home or have already registered to do this then we invite you to contact us with your email address so that we can build a network of people in our community. This will be a good way to share information, keep up-to-date with what the progress is, and maybe also help to keep extended refugee families a bit closer together here in the UK.

If you are unable to host a refugee but would like to be involved in welcoming them into this community then we would also like to hear from you. As one group we will be able to work better together with other community groups, schools, the council, etc as time progresses and make this community a safe and caring environment for these people as they rebuild their lives and integrate into the community.

To register your interest or for more information please email us on
