

The Charities We Support

Supplies fresh and tinned food, toiletries and household items to local people who need a little extra help, receive free school meals or have reduced income due to redundancy or loss of hours.

Street pastors share God's love practically and spiritually: offering reassurance, safety and support by listening, caring and helping those who are cold, lost, needing first aid or to get home.

We all need clean water. Climate change intensifies extreme weather and hits vulnerable communities the hardest. Water Aid helps people to adapt so they have a steady supply of clean water, whatever the weather.
