The Friends of All Saints Church, Horsford

8/12/2025

Dear Friends,

As we come to the end of another year, I just wanted to say a big thank you to everyone who's been a part of the Friends of All Saints Church, Horsford. Your generosity and commitment to the Friends continues to help sustain both the fabric of our historic building and the life of our Parish community. Together, we're keeping All Saints Church at the heart of Horsford.

As we enter the coming year, we remain committed to caring for our church and serving our village. With your continued support, we hope to undertake further restoration projects in 2026 such as restoring the green and gold silk altar front, a beautiful part of our church heritage that deserves to shine and be used again. In addition, we are planning to have a replacement sound system (the previous one went terminally wrong earlier this year) and replacing some of the linen cloths we use at Holy Communion Services. We also hope to explore more opportunities for the eco use of the churchyard, which is a wonderful green space for all the village to use.

With your continued support to the Friends of All Saints Church, we're confident we can make these projects happen. Thank you again for being with us and supporting our journey.

Wishing you a peaceful, joyful, and blessed new year; we hope to see you soon at any of our upcoming events and services.

With gratitude,

Revd Margaret McPhee, Rector, All Saints Church Horsford.

2025 Work at All Saints, Horsford

The completion of the urgent roof repairs was a time of great rejoicing! The thatch roof on the Chancel was undertaken in September and October which has made the church water tight with the added benefit of insulation. There is around £1,250 left to raise for these repairs, so almost there.
