

Story of the Wise Men Part 1

The wise men came from afar travelling from the east and eventually landed at the port of Falmouth in the county of Cornwall. The quest was to visit the baby Jesus.

After looking over the beautiful bay they came across a swing where they took a rest as they had travelled a long way

and they had time before catching the boat up the River Fal to Truro, the capital of Cornwall.

When they arrived at Truro they visited the Cathedral to thank God for their safe journey so far and for the onward route before finding somewhere to stay for the night.
