Three Exhibitions at Southwark Cathedral

Water in London | Cathedral Railings

Along the railings outside of the Cathedral, expect to see a diverse range of photographic work showing London water from fountains to small rivers and lakes and of the Thames. This is water as playground and work place. Presented by the Royal Photography Society London Region.

Threads and Petals | Retrochoir & Sanctuary

An exhibition of flowers and vestments in the Retrochoir and Sanctuary. The Jubilee copes, Comper vestments and Talbot cope will be some of the highlights. It will spotlight the skill, creativity, and dedication of the Cathedral’s volunteer broderers and flower arrangers.

Mudlarking | Treasures from the Thames | Cathedral Link

Richard Hemmery – mudlark and pottery specialist

During the month of May Richard is exhibiting objects he has found on the Thames foreshore alongside a timeline of river-found pottery sherds dating back more than 2,000 years.
