

Beautiful churches, like All Saints' Ladbroke are architectural gems and reminders of our Christian tradition. However the mission of the church is to worship God, share the good news about Jesus and serve others. If we were starting new churches we would not saddle them with the care of large historic buildings! They are both a blessing and a huge responsibility.

Since All Saints' Ladbroke became one of my parishes 7 years ago I have been continually impressed by the care the congregation and community give to this exceptional building.

However we have reached a point when the costs of the tasks to be done far outweigh the regular income available and I ask you to support this campaign. But not just that, come and enjoy this special place where for hundreds of years people have worshipped God and celebrated special times in their lives. With your help we can maintain it so that future generations may appreciate its beauty, peace and memories too.

Ladbroke Church now needs £250,000

Ladbroke Church has stood for many centuries. It falls to each generation to look after this lovely, Grade I listed, building not only for their benefit but for those to come.

Here are the main concerns we need to resolve in the next 1 to 5 years and inside we'd like to install a sound system so everyone can hear.

The Government's Roof Repair Fund grant of c.£76,000 means our campaign is off to a great start but the other works will cost at least a further £250,000.

To help ensure All Saints for all generations:

Give generously, see back page for ways to make

- a one-off donation
- a regular payment

Gift aid your contribution if you pay UK income tax and make it worth 25% more
