Haiti struck by a deadly earthquake
On Saturday 14 August, a 7.2-magnitude earthquake struck Haiti at Les Cayes, 75 miles west of the capital of Port-au-Prince. On Tuesday 16 August, Tropical Storm Grace, flash floods and mudslides have now caused further devastation on the island. To date the earthquake has claimed more than 2,200 lives, injured almost 12,000 people and destroyed 130,000 homes. At

least 344 people are still missing. Families are seeking safety wherever they can with nothing but the clothes on their backs. Entire communities have been made homeless.

Right now, people who have lost everything need emergency shelter, food, drinking water and access to healthcare. Our local partners are on the ground ready to respond, but we need your help to reach more of the most vulnerable people – women and girls, older people and people with disabilities are all most at risk.

As you enjoy this country's bountiful harvest, please think of the people of Haiti and give what you can to help them.
