Who We Are

St Thomas's is a progressive, creative Anglican church in the heart of the Garden Quarter of Chester, with a diverse congregation of all ages and nationalities. Each year we become a church home to new and returning students. We are affiliated to the Student Christian Movement and share its vision of a generous community, in which prayerful devotion meets social action.

Our Worship

Our worship is modern Anglo-Catholic where a depth of tradition and spirituality works its way out into the community, particularly through the creative arts. During their time with us, we hope that students will want to use their gifts in liturgy and action, both joining our church teams and developing their own ways of being church together, with our support and that of the University Chaplaincy.

Our Values

Our values are theologically liberal and we are one of the few members of Inclusive Church in the Chester area. We believe that all are one in Christ regardless of sexuality, gender identity, race, economic status, or our unique neural pathways!
