## LETTER FROM THE CLERGY TEAM

**H**AVE YOU WALKED DOWN PASTURE LANE IN HATHERN RECENTLY? As I write, the snowdrops line the way and herald the hopes of Spring; there are even a few daffodils starting to open and I hope that, by the time you read this, they will be crowding the verges in their turn. It's amazing how resilient Nature is, even with all the rain we have been having the bulbs are still determined to bloom. When we do see the sunshine, we can really appreciate it, and I was very grateful to hear a blackbird singing away yesterday – all hopeful signs that the year is awakening and bringing promise of new possibilities.

New life and new beginnings are all around us. Each flower is a symbol for something new taking shape within us.

Everything blooms in its own time. In our lives, just as in nature, patience forms the most beautiful things that we experience.

Colour and light are vital to life. Spring feels good because it reminds us how deeply we need variety and vividness in our surroundings.

Great things are waiting beneath the surface. Only when the flowers bloom do we realise the potential that lay beneath our feet all the time.

The important things are the simple things. Grass, rainfall, sunlight, a single flower – the smallest things matter still.

Christians are in the middle of the season of Lent, a 40-day preparation for the celebration of Easter through self-denial, personal sacrifice and study. The word 'Lent' comes from the Old English 'lencten' meaning 'Spring season', symbolising both the season and the spiritual renewal that it represents. Easter is, of course, the ultimate story of new life and rebirth with the joy of the resurrection of Christ.

Let us take heart that we will soon be able to abandon our wellies, feel the sun on our faces and the grass beneath our feet again. 'For I will pour out my Spirit on your offspring, and my blessing on your descendants. They will spring up like grass in a meadow, like poplar trees by flowing streams.' Isaiah 44:3-4

With every blessing, Sue

## LADIES' LUNCH

**R**EADERS MAY BE AWARE that the church already hosts a monthly Men's Breakfast Group and we have been asked if it would be possible for a church-orientated Ladies Lunch Group to be organised along similar lines.

At this stage, we are looking for expressions of interest in something of this nature. If you would be interested in being part of such a group, which would meet every couple of months on a weekday at a local pub, could you please let either me know, on 01509 843744, or Sandie, on 01509 550374, by the end of March, in order that we can gauge the appetite for this.

We will then add your details to a list of interested parties and contact you again if there is sufficient interest, with details of an inaugural meeting. Thank you.

## THE SALVATION ARMY 'POP' GROUP

**O**UR BENEFICE PRAISE GROUP SINGS "A STARRY NIGHT" every year at the end of the Christmas Tree Festival. It's by the JOYSTRINGS, a group formed in 1963 and all members were in the Salvation Army in the UK. Major Joy Webb (Joy was a Captain at the time) is listed as the founder of the Joystrings.

Their first song, "It's an open Secret", entered the UK charts in 1964 and rose to the dizzy heights of 32. Not bad for a Christian beat group! However, the only other minor hit they had was what they are membered for - a Christmas song, 'A Starry Night' - which peaked at 34 in the UK charts in 1965

The group disbanded in July 1969. Members of the Joystrings were usually temporary for about six months each, so there are many of them and they have had reunions in 2004 and 2009. But many of their fans were distraught when they disbanded as it was felt that they at their peak.

(continued overleaf)

A compilation album entitled 'Restrung', was released in 2011, and featured a collection of their songs, showcasing their enduring impact on Christian pop music. The album included tracks that reflect the sound of the 1960s, with melodic songs that remain relevant today.

*A man in a hot air balloon realised he was lost. He reduced altitude and spotted a woman below. He descended a bit more and shouted, "Excuse me, can you help me? I promised a friend I would meet him an hour ago, but I don't know where I am."*

*The woman below replied, "You're in a hot air balloon hovering approximately 30 feet above the ground. You're between 40 and 41 degrees north latitude and between 59 and 60 degrees west longitude."*

*"You must be a physicist," said the balloonist. "I am," replied the woman, "but how did you know?"*

*"Well," answered the balloonist, "everything you told me is technically correct, but I've no idea what to make of your information, and the fact is I'm still lost. Frankly, you've not been much help at all. If anything, you've delayed my trip."*

*The woman below responded, "You must be a Member of Parliament then." "I am," replied the balloonist, "but how did you know?"*

*"Well," said the woman, "you don't know where you are or where you're going. You have made a promise which you've no idea how to keep, and you expect people beneath you to solve your problems. The fact is you are in exactly the same position you were in before we met, but now, somehow, it's my fault."*
