Famous people from the Bible No. 36:

Abigail (1 Samuel, chapter 25. If you've not heard of her!)

Harvest Festivals abound this month, along with Shillingford History Groups talk on The Women's Land Army.
(There is a tie-in with Abigail! Sort of.)

LETTER FROM THE RECTORY

We had an early harvest of falling leaves this month, courtesy of the drought. Since the beginning of August we have been sweeping brown, crackly, desiccated leaves into piles in the garden. I grieve at their premature passing, at the weeks of their greenery all wasted, at the loss of their promise of autumnal red and gold.

The cycle of life, death and rebirth is imprinted into the blueprint of every living creature. And as I look at branches bare of leaves which fell in what should have been their green prime, I relearn the lesson that is so hard for us to understand: nothing on earth is permanent. But Christians believe that there *is* a permanence from which we all came and to which we are destined to return: the love of God – ‘For great is his steadfast love toward us, and the faithfulness of the Lord endures forever.’ (*Psalms 117*)

We celebrate this enduring love in our Harvest Thanksgivings this month, when we say “thank you” for all the blessings we receive. It has been a particularly difficult growing season for farmers, growers and gardeners with constant rain early in the year and then the weeks of drought which parched the land; it brought home to us the reality of the difficult growing conditions which continually affect many parts of our world. We hold in our prayers those whose harvests have failed and all those who struggle, for whatever reason, to feed their families. And we thank all the volunteers and donors who give so generously of their time and means to support the Teign Valley Larder in our villages.

Our farmers have suffered a second blow resulting from the hot summer: blue-tongue disease has struck and is afflicting many livestock throughout the southwest. We hold farmers in our thoughts and in our prayers, as well as the organisations which exist to help support them, such as *The Farming Community Network* <https://fcn.org.uk>

Details of the Harvest services in all our churches will be found on the back cover of this magazine. A Harvest theme will also prevail in our schools and in Forest Church on the fourth Sunday. As October progresses and the days inevitably grow shorter, we prepare to change our clocks at the end of the month; an extra hour of sleep will be most welcome! A funny thing, time ...

*Time is ...
too slow for those who wait,
too swift for those who fear,
too long for those who grieve,
too short for those who rejoice;
but for those who love,
time is not.*

(Henry Van Dyke, *Music and Other Poems*, 1904)

News from Christow WI

Ruth Foster is a local author who grew up in London. But now lives in rural Devon's Blackdown Hills with her husband and elderly cat. She has 2 grown up children. When she is not digging her car out of potholes or chasing stray deer and rampaging sheep from her land, she writes prize winning stories, articles, plays and authors the local panto. She studied law and qualified as a barrister before moving into publishing and communications. She has spent her working life creating successful books and published works across nonfiction markets. She got the inspiration for her novel "A perfect year?" Published in 2024 from Round Robin letters she began receiving around the turn of the century. She and her family would read them together laughing at the funny ones and reflecting on others. This began to sow the seed for a work of fiction based entirely on round robin letters. As a busy working parent, with no spare time she just squirrelled away the letters for future reference. She says, "these letters often get a bad press but, read between the lines of Ruperts fantastic exam results or Emily's promotion to the board and the real story lurks beneath". A perfect year? tells the story of three very different families and the feud that develops between them – always with an eye to making the reader smile. Set in the 1990's and early 2000's when Britpop reared its head, while A new young government was trying to make its mark and social media became a thing. Remember when friends reunited and Bebo were cutting edge and the Millenium dome ballooned out of the earth beside the River Thames?

You are all welcome to join us on Thursday 8th October at 2pm at the Teign Valley Hall, where you can meet Ruth and hear her story in her own words. Please bring £5 in cash and you will also get a hot drink and cake. What a bargain for an entertaining afternoon out.

We hope to see you there. Please consider joining us.

The process for the appointment of Mike's successor is progressing; with plans for interviews in mid-January.

Until his replacement is appointed, services will be led by visiting clergy and lay leaders. I am confident that we will continue our weekly Sunday services until such time as our new rector arrives.

The Shillingford Neighbourhood Plan

The Shillingford Neighbourhood Plan continues to take shape, with groups of local volunteers meeting to agree which questions we should be addressing in the upcoming neighbourhood plan questionnaire.

These three working groups have looked at community, transport and road safety and environment and biodiversity. We have benefited greatly from expertise within the community, and in particular from creative graphics, video and photographic talent - watch this space!

The Neighbourhood Plan now has its own section on the Parish website: <https://shillingford-pc.gov.uk/neighbourhood-plan>. We will continue to provide updates here in Country News, with further detail on the website.

“My Devonshire Darlings: The Women’s Land Army in Devon”

By the end of 1943, over 1,700 women were serving in the Women’s Land Army and subsequently the Women’s Timber Corps, in Devon. They lived and toiled individually on farms, or as part of a gang that lodged in a hostel and worked on the land wherever they were needed. The ‘Land Girls’ and ‘Lumber Jills’ were crucial to maintaining food and timber supplies during the Second World War.

A talk by Rebekah Pearson, a former Royal Navy Officer who lives locally in Lymptone. “Becks” will bring some authentic Women’s Land Army uniforms with her.

Birdsong

You have heard the birds singing merrily away and tried to identify them. You can download an app to your phone called Merlin Bird ID. (See <https://merlin.allaboutbirds.org>) You simply open the app, and your phone will tell you which bird you can hear and show you a picture of it. How does the phone know and how does it tell you so quickly?

Birdsong is composed of many different cheeps and chirps of different pitch, typically about 50 milliseconds (50 thousandths of a second) long. The phone takes maybe 128 samples of these, each sample about 3 milliseconds long. Then comes the clever bit... There is a formula applied to each sample:

$$Y(k) = \sum_{n=0}^{N-1} y(n)e^{-\frac{i2\pi kn}{N}}$$

Notice the
imaginary number i

This very complicated formula is called the Discrete Fourier Transform. The answer is a number. N is the number of samples (128 in our example). This formula converts each cheep or chirp into a number. In our example, the phone now has an ordered list of 128 numbers which it can quickly compare to the list of numbers stored inside it and identify the bird. This is how the phone does it so quickly and in places where there is no phone signal.
