Walk to Mill Bridge

A short walk from St Botolph's Church, Burton Hastings

The Ashby Canal loops round the village. The canal has no locks, reflecting the flat land in the area. The hilliest part of this walk is ascending the canal bridge! Beware, not of bears but if you venture onto the towpath it gets a little muddy in the winter times. It's recently been much improved.

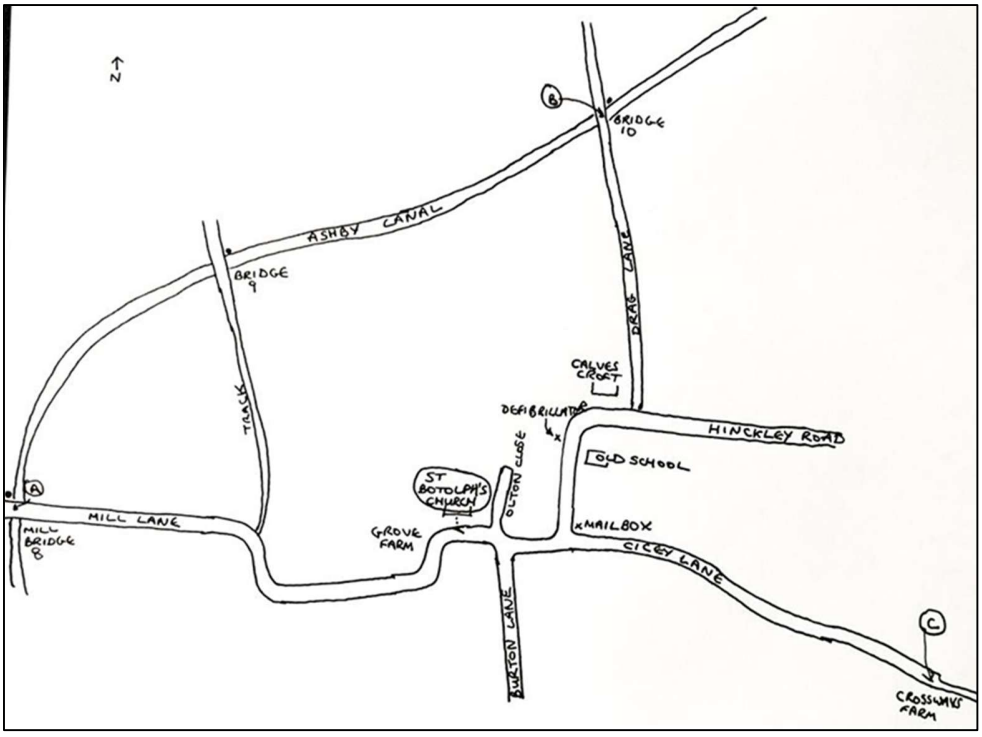

This short walk is along Mill Lane and about 0.3 miles (6 mins) to get there.

Go out of the church gate, then turn right and follow the road, turn left in front of Grove Farm then right, past the farm, past the stables on the left. The lane then bends right and then left. Then you should see the canal bridge in the distance. The bridge is a listed bridge, Mill Bridge 8.

Approaching the bridge, on the right, you will be able to see across the fields. You will be able to see the Ashby canal, possibly with boats. In the summer you might see some swans that return to reside nearby.
